

## Del Hart

I am a man of integrity, a developer of people, and an individual who has an intense drive to achieve high goals. "Game changer" would be the best way to summarize my abilities to improve an organization in a positive manner. I respect individuals, I celebrate their achievements and talents, and I patiently work with them, in order to develop them to their highest potential. These individuals are empowered and enabled to drive the organization to heights, previously thought to be unattainable...while morale simultaneously soars. The greatest resource we possess in our educational organizations is our students, and it is a privilege to be able to serve them through the educational leadership of teachers. As I empower and enable teachers to be the best in their field, I am also impacting the lives of countless students in the areas of student achievement and growth.

My professional career includes the following:

Biology Teacher – East Juniata High School

High School Principal – East Juniata High School

Adjunct Professor – Susquehanna University

Dean of Academic Affairs – ITT Technical Institute

Dean of Education – Keystone Technical Institute

Coordinator of Programs of Study and Professional Development – Pennsylvania Department of Education.
