

## Dr. Joi C. Spraggins

Joi C. Spraggins, PhD is recognized as a legacy leadership expert in global diversity inclusion, leadership, strategic communications, program administration, public policy analysis and civic engagement. Dr. Joi®, her motivational trademark name, is a consultant, keynote speaker, trainer, and author.

She is the President of Legacy Pathways, LLC, an innovative global diversity and inclusion management consulting and training firm. Customized services include strategic planning, program administration, leadership development, strategic communications, global diversity inclusion training and job creation plans. Focused industries include NASA-Related Career and Technical STEM education, workforce development, strategic communications, health, energy, advanced technology, research and development.

Legacy Pathways' mission is to provide cutting-edge products, services and solutions that accelerate its clients' legacy leadership and global competitive advantage with greater sustainability. The results help leaders build their Legacy, Pathways and Footprints (LPF) through people, performance, profits and collaboration.

Legacy Pathways' non-profit arm, Legacy Bridges, a NASA-Related Career and Technical STEM Education, Workplace and Workforce Development Innovation Center provides services that help prepare youth, veterans, and sports personnel in transition for STEM careers. Dr. Spraggins is the Founder and Program Administrator of the Legacy Pathways-Legacy Bridges Global Diversity and Inclusion, Best Practices for Strengthening our Nation's NASA-Related STEM Education, Workplace and Workforce Development Ecosystem.

Legacy Leadership is a forward-thinking arena where leaders set the tone for accelerating into the future by executing strategies and solutions that build upon positive national and international sustainable socio-economic growth. The results help to build a 21<sup>st</sup> Century global inclusive workforce development talent pipeline while positively benefiting humanity.

Dr. Joi® is an advocate for 21<sup>st</sup> century career and technical STEM Education. She received her Doctoral Degree from the American Society of Christian Therapists and earned her Masters of Government Administration (MGA) from University of Pennsylvania's Fels School of Government.
